Francesco Weikmann

Date of birth: 17/03/1999 | **Nationality:** Italian | **Gender:** Male | **Phone number:** (+39) 3420636162 (Mobile) | **Email address:** fweikmann@gmail.com |

Address: Via Giacomo Matteotti 91 , 38122, Trento (TN), Italy (Work)

EDUCATION AND TRAINING

25/07/2018 – 15/06/2022 Povo (TN), Italy
STUDENT University of Trento, Computer Science, bachelor degree

Address Via Sommarive 9 , 38123, Povo (TN), Italy | **Website** https://www.disi.unitn.it/it

Trento, Italy
JUNIOR DEVELOPER Bruno Kessler Foundation (FBK)

- Developed a mobile-first web app to engage users in city cyclability surveys, earning 2nd place in the OSS4SDG challenge proposed by United Nations and European Commission.
- Built the full pipeline for missions, map geometries, and interactive user experience, including points, leaderboards, and multi-city support
- Built the logic for authentication, credentials and data analysis.
- The app interacts directly to OSM incrementing its data and informations.
- Implemented both the back end and the front-end system using Vue.js, Ionic, HTML/CSS, JavaScript, and handled geospatial data with MapLibre, Turf.js, Tippecanoe
- Hosted the web-app online, enabling users to interact with city maps and answer questions to earn points
- Tools: Vue.js, MapLibre, Ionic, Javascript, HTML, CSS, Tippecanoe, Python, Spatalite, Auth0, Turf.js, and others

LANGUAGE SKILLS

Mother tongue(s): **ITALIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2
GERMAN	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

HOBBIES AND INTERESTS

VideoGames Drawing and animation

Among my interests there's videogames, drawing and animations. I use photoshop and procreate to draw and when I usually animate frame by frame, even though sometimes I like to have fun using after effects. As per videogames I like to play them and also make them, it's tons of fun

Music

I enjoy playing the acoustic guitar, I learned it initially by myself and now and then I take lessons. I really enjoy the fingerstyle technique since you can make any sound with it, both drums voice and melody!

PROJECTS

30/01/2026 – 01/02/2026

Yae12

Programmer | Team Project
Theme of the Jam: "Masks"

- Best "Meme" game of the Global Game Jam Milan organized by IGDA
- Collaborated with a team composed by 5 people. Partecipated with almost the same team as the year before
- First day completely dedicated to design. Challenged myself by working as a designer alongside another teammate
- Contributed as a programmer and designer, implementing core flow of the game and character creation
- Led planning and task division, aligning design and development before implementation alongside another teammate
- Delivered a polished, playable product under tight time constraints (less than 3 days)

Link https://globalgamejam.org/games/2026/yaea12-7

18/02/2025 – 09/03/2025

Yesterday's Sparks

Lost Frequencies 2025 Jam
Narrative Game | Team Project
Theme of the jam: Lost signals in space hide untold, retro video game stories. Explore and remix classic game elements with modern mechanics and narratives.

- Partecipated as developer and contributed also in the design part
- Worked with a team composed by 6 people
- Challenged myself with a narrative game with multiple minigames

24/01/2025 – 26/01/2025

MC Bubble, Robert Bubble

Programmer | Team project
Theme of the Jam: "Bubbles"

- Winner — Best Game of the Global Game Jam Milan organized by IGDA
- Collaborated with a newly formed team to design and develop a complete game within 48 hours
- Prioritized design alignment and task planning before writing cod**e**, enabling fast and coordinated implementation during development
- Contributed as a programmer, implementing core gameplay systems and integrating multiple minigames into a cohesive experience
- Participated in early planning and task division, aligning design and development before implementation
- Delivered a polished, playable product under tight time constraints

12/01/2022 – 22/02/2023

PipThePirate (Videogame)

Pip the pirate | Solo Mobile Game Project (2022)
2D Endless Runner

- Designed and developed a complete 2D mobile endless runner as a solo project shortly after graduation
- Owned the full production pipeline: game design, programming, art, animation, and original music composition

- Implemented gameplay systems including enemy interactions, scoring, and movement mechanics
- Published the game on Android (Google Play)
- Tools: Unity, C#, Photoshop, Ableton

Link https://www.ldplayer.net/games/pip-the-pirate-on-pc.html

01/11/2022 – 30/11/2022

It's Always The Butler (Videogame)

Game Off Game Jam (2022) | Solo Project
Adventure / Point-and-Click Game

- Designed and developed a complete *point-and-click adventure game* during a 1-month game jam following the "Clichés" theme
- Sole developer, responsible for game design, programming, and visual assets
- Implemented core gameplay systems including puzzle logic, character switching, and environment interaction
- Delivered a fully playable game within the jam deadline
- Tools: Unity, C#, custom art assets; audio sourced from open-source libraries

Link https://francescow.itch.io/its-always-the-butler

2022 – 2022

The Little Guy (Videogame)

Designed and developed a small 2D action game in Unity (C#) featuring a little guy fighting enemies with an umbrella as an early-career project focused on understanding core game development concepts
Owned the full development pipeline: game design, programming, art, and animations.
Implemented the full gameplay systems including player controls, enemy behavior, and state machines
Published a playable prototype on itch.io to validate the concept and gameplay loop

- Tools: Unity, C#, Photoshop, After Effects

PROGRAMMING LANGUAGES

Programming Languages And Softwares

I have experience with different programming languages and programming softwares like:

- Java
- Javascript
- Python
- React
- Html
- CSS
- Vue.js
- MapLibre
- Ionic
- Turf.js
- Flutter
- C++
- C
- C#
- SQL
- npm
