Date of birth: 17/03/99

Nationality: Italian

Address: Via Giacomo Matteotti 91,
38122, Trento, TN, Italy

EDUCATION AND TRAINING

University of Trento, Povo (TN), Italy
25/07/2018 – 15/06/2022

Bachelor degree in Computer Science
Website: <https://www.disi.unitn.it/it>

Internship at FBK (Bruno Kessler Foundation), Povo (TN), Italy
06/07/2022 - 31/10/2022

Developed a mobile-first web app “*Bikingimprover*” to engage users in city cyclability surveys. This project placed 2nd in the OSS4SDG challenge proposed by United Nations and European Commission.

HOBBIES AND INTERESTS

Videogame: I’ve been playing videogames since my childhood. I enjoy both playing and creating them.

Art and animation: I’ve always liked drawing, now I draw in order to see my character and environments move in my own projects and videogames!

Music: I enjoy playing the acoustic guitar. I mostly enjoy the fingerstyle technique.

LANGUAGES

Italian - Mother tongue
English- B2
German - A2

WORK EXPERIENCES

Game Developer, AnotheReality, Milan (MI), Italy

23/07/2023 - Current

Worked as a programmer specializing in XR/VR development using **Unity**, contributing to multiple client and internal projects.

Acted both in team and as solo dev to deliver products and games (e.g., Nailit).

Worked with major companies to define and deliver solutions, interfacing directly with different clients.

Worked on definition and implementation of new features in the core product of the company, developing solutions for a multiplatform environment (Android phone, WebGL and VR/XR).

Junior Developer, FBK (Bruno Kessler Foundation), Povo (TN), Italy

01/05/2023 - 23/07/2023

After finishing my bachelor’s internship at FBK, I was hired to implementing new functionalities in the cyclability web app *Bikingimprover*, creating new gamified features and quests inside the app.
